

A.S.P.I.R.E (ACT Supplemental Preparation In Rural Education) is a curriculum designed to help improve student's ACT Scores.

By improving students ACT Scores we can give them an edge in an extremely competitive market for admission. We are currently in 30 different counties and have 40 different instructors in North Carolina and are continuing to gain more, as people see the awesome impact we are having on students from all backgrounds.

CHANGING LIVES
THROUGH VALUABLE
EXPERIENCE AND
EXTRAORDINARY EDUCATION.

WHAT A.S.P.I.R.E DOES FOR YOU:

- Significantly Improves ACT Scores
- Teaches Test Taking Strategy
- Builds Confidence in Students
- Improves Chances of Admission
- Gives Students Practice and Evaluation
- Gives Students an Opportunity to Visit North Carolina State University and Tour CAMPUS!!

Education**

PREPARING THE FUTURE
AGRICULTURE
LEADERS...ONE STUDENT,
ONE PERSON, ONE MISSION

WHAT IS A.S.P.I.R.E?

A.S.P.I.R.E is a program through the Department of Poultry Science, that focuses on helping the youth of today reach their educational potential. We focus on helping improve student's test taking ability and strategy through comprehensive learning, and dynamic objectives.

Is A.S.P.I.R.E for me?

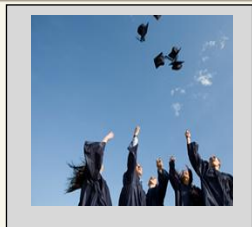

Absolutely! Our program is targeted toward young people who have a strong background in agriculture and want to continue that tradition. We want people like you who are interested in pursuing a degree in the College of Agriculture and Life Sciences, here at NCSU.

Don't know if agriculture is for you in the future? Think about this, there are 7 billion people on Earth that need food, fiber and natural resources. In North Carolina alone agriculture is not only the number one industry, but a \$70 Billion plus industry.

Agriculture and Agriculture Services are much more than just "farming" today. Agriculture is a business, science and technological industry that needs you to be the next leader. From agriculture engineering to aquaculture to feedstock production to biotechnology and agri-science, agriculture and NCSU have a lot to offer!

IS IT AFFORDABLE? HOW MUCH TIME WILL I SPEND?

The initial cost of the A.S.P.I.R.E program is \$165. However \$100 is refundable based upon your attendance and taking all four of the ACT practice exams within the ASPIRE program. The other \$65 will help to cover the cost of your ACT Test Preparation materials and instruction. The materials include: 1 Princeton Review ACT Study Manual, 1,296 Practice Questions Booklet, Princeton Review Selective College Admissions Booklet, 4 full length ACT Practice Exams, and 30 hours of ACT Test Preparation Instruction. If you were to privately seek this same type of ACT Test preparation, you would pay approximately \$1,000!
